

TEXAS SOVEREIGNTY & INFLUENCE SHIELD ACT

Kenneth Hyde – Chief Author | Ready Week 2

Texas land. Texas rules.

No hostile foreign nation or agent will ever own our dirt or our decisions again.

- Permanent ban on land & home purchases by the governments of China, Iran, North Korea, Russia (and any entity they control) plus cartel-linked organizations
- Mandatory Texas Foreign-Agent Registry (Texas FARA) — anyone taking money or direction from a foreign government must register publicly
- Full transparency on foreign funding to universities, think tanks, and NGOs
- Criminal penalties + property forfeiture for violations

Right now hostile nations already own >400,000 acres of Texas — including land next to military bases.

This bill slams the door shut forever.
