

TEXAS SOVEREIGNTY DEFENSE ACT

Already written. Ready Day 1.

Kenneth Hyde – Chief Author

Texas border. Texas troops. Texas rules.

No more watching. Texas takes control.

One bill. Four historic wins.

1. **Immediate deployment of Texas National Guard & State Guard** directly to the riverbank — not 30 miles back.
2. **Full arrest authority restored** — no more catch-and-release on our dime.
3. **All razor wire, buoys, and container barriers declared permanent** — felony to remove them.
4. **Federal orders to stand down are ignored** unless 2/3 of the Legislature says otherwise.

Right now — in January 2026 — the federal invasion continues: over 10 million illegal crossings since Biden, flooding Texas with drugs, crime, and cartels [1].

Abbott spent \$11 billion to watch [2] — while federal agents cut wire and block our troops.

Texas sovereignty is under attack—our border, our safety, our future.

Responsible the Texas way: Ties to my **Texas Sovereignty & Influence Shield Act** (ban foreign land ownership). \$3 billion already lined up so DC can't starve us out [3]—fair process with due process for all.

This bill ends the watching on Day 1.

Full border security, no more federal excuses. Revenue from *Freedom Fund* boosts enforcement without new taxes.

This isn't just talk.

This is ending the invasion — protecting Texas border, safety, and families — and using bold action to make Texas freer and stronger.
